

# THAILAND

SPRING • FY2022 • COUNTRY REPORT

**Your support is making a difference to farmers like Yuba. Thank you!**

## YUBA'S STORY

"Before I worked with Plant With Purpose, I had no knowledge or skills about how to manage our ecosystem. I would get upset with my neighbors, complaining about what their pets were doing to my backyard garden.

Since I've joined a Purpose Group, I have the technical skills to protect our ecosystem and cultivate healthy soil, which helps me generate income. I have a different mindset around being adaptable and building resilience. I see how community forestry plays a role. We have the respect of the local authorities. I have genuine friendship with my neighbors. And I see how together we can collect information, make a master plan, and manage our natural resources.

The changes I've seen are amazing. I am starting to see how God has already given us everything we need to have a quality life and to achieve our long-term, future visions."

## PROGRESS REPORT

181,725 Trees Planted • 410,000 Planned

**44%**  
TO GOAL

**62%**  
TO GOAL

10 Groups Formed • 18 Planned

**56%**  
TO GOAL

6 New Church Partners • 10 Planned

**60%**  
TO GOAL

\*as of Q2 FY2022

## HIGHLIGHT

Our communities in Thailand are increasingly partnering with local organizations and governments in their work. In fact, our partner organization in Thailand, Upland Holistic Development Project (UHDP) recently became recognized by the government as an official foundation, now making them the Upland Holistic Development Foundation (UHDF).
